Four Skills of Baseball

Baseball requires only four basic skills:

- Throwing
- Catching
- Hitting
- Running

You can read about the particulars of these skills in books about baseball and practice them for your requirements.

Training Suggestions

For baseball, it's important to be able to run fast for short distances, have strong legs for endurance, and have strong hands and arms to swing the bat. Here are some drills to improve physical fitness in these areas:

Batting Order

A team should let its best hitters and runners bat first because they will get to bat more often during a game. Here is an example of a strong batting order:

First Batter. Usually small and fast with a good eye. This is an excellent spot for a left hander.

Second Batter. A good bunter and fast runner.

Third Batter. Best hitter; he hits the ball often.

Fourth Batter. Good hitter with men on base.

Fifth Batter. Long-ball hitter, aggressive hitter.

Sixth Batter. Fairly good hitter with speed.

Seventh Batter. Fairly good hitter.

Eighth Batter. An inexperienced player with promise.

Ninth Batter. A good fielder.

Baseball helps you grow up—in both mind and body. It brings you new friends, shows you how to get along with others, and helps you live up to your Cub Scout ideals—the Cub Scout Promise and the Law of the Pack.

You may want to join a youth league or try out for your school team. You might dream about going to college on a baseball scholarship, or playing for the USA Baseball National Team at the Olympics or other international competitions, or playing professional ball someday.

But whether you play baseball just for fun or want to go for a career in the big leagues, remember that the best you can do is to *do your best*.
